To our valuable Foster Carers,

Firstly, we would like to say thank you for coming on board as a foster carer for The Not Forgotten Ones. Foster carers are an extremely important part of our organisation and we truly appreciate you supporting us as we strive to save more precious lives.

Please take the time to read through the following pages as they are all full of very important information to help the fostering and adoptions process run smoothly for everyone involved.

Fostering Term and Conditions:

- No animals to be taken outside (where there is no secure enclosure) unless on a leash at all times.
- Reasonable notice must be given if you need to return the animal for any reason. Please note that it could take up to 24 hours for one of our admins to respond to your message and that finding a suitable foster carer to transfer the animal to can take a varied amount of time.
- Please try to make yourself available for all meet and greets. Returning any calls if needed and answering any questions a potential adopter may have.
- As a foster carer we only ask for you to organise the meet and greets ONLY. Please always refer potential adopter to pm the page as it is not your responsibility to take money or to approve adoptions and we find this process runs a lot smoother if handled completely by one of our experienced admins.
- If you decide you no longer wish to foster for TNFO, please note that ALL property items eg netting, bedding, crates, littler trays, kennels, remaining food, litter and meds MUST be returned immediately.
- Under no condition is a foster carer to pass on any animal or property belonging to TNFO without prior consent from a committee member.
